No part of this publication may be reproduced or transmitted in any form or by any means, electronic or mechanical, including photocopy, recording, or any information storage and retrieval system, without permission in writing from the copyright owner.

The appearance of the code at the bottom of the first page of an article in this journal indicates the copyright owner's consent that copies of the article may be made for personal or internal use, or for the personal or internal use of specific clients. This consent is given on the condition, however, that the copier pay the stated per copy fee through the Copyright Clearance Center, Inc. (27 Congress Street, Salem, Massachusetts 01970), for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. This consent does not extend to other kinds of copying, such as copying for general distribution, for advertising or promotional purposes, for creating new collective works, or for resale. Copy fees for pre-1992 articles are as shown on the article title pages; if no fee code appears on the title page, the copy fee is the same as for current articles.

CONTENTS OF VOLUME 32

NUMBER 1, JULY 1992

SCOTT A. KINZY. An Analysis of the Supply of Housing Characteristics by Builders within the Rosen Framework 1

WILLIAM STRANGE. Overlapping Neighborhoods and Housing Externalities 17

RAYMOND B. PALMQUIST. A Note on Transactions Costs, Moving Costs, and Benefit Measurement 40

JUDITH ROBERTS. A Comment on the Many Faces of Tiebout Bias . 45

JOSEPH GYOURKO AND RICHARD VOITH. Local Market and National Components in House Price Appreciation 52

KEITH R. IHLANFELDT. Intraurban Wage Gradients: Evidence by Race, Gender, Occupational Class, and Sector 70

ALAN GIN AND JON SONSTELIE. The Streetcar and Residential Location in Nineteenth Century Philadelphia 92

JAMES D. SHILLING, C. F. SIRMANS, GEOFFREY K. TURNBULL, AND JOHN D. BENJAMIN. Hedonic Prices and Contractual Contingencies 108

NUMBER 2, SEPTEMBER 1992

WILLIAM H. HOYT AND STUART S. ROSENTHAL. Owner-Occupied Housing, Capital Gains, and the Tax Reform Act of 1986 119

CHARLES A. M. DE BARTOLOME. The Fiscal Effect of Community Composition on Public Services and Welfare 140

GEORGE J. BORJAS, STEPHEN G. BRONARS, AND STEPHEN J. TREJO. Self-Selection and Internal Migration in the United States 159

DUCK-HO LIM. The Nonneutrality of the Land Value Tax: Impacts on Urban Structure 186

DANIEL P. MCMILLEN AND LARRY D. SINGELL, JR. Work Location, Residence Location, and the Intraurban Wage Gradient 195

DANIEL N. CHAMBERS. The Racial Housing Price Differential and Racially Transitional Neighborhoods 214

TIMOTHY J. BARTIK, J. S. BUTLER, AND JIN-TAN LIU. Maximum Score Estimates of the Determinants of Residential Mobility: Implications for the Value of Residential Attachment and Neighborhood Amenities 233

LARRY DEBOER. Economies of Scale and Input Substitution in Public Libraries 257

NUMBER 3, NOVEMBER 1992

ROBERT ENGLE, PETER NAVARRO, AND RICHARD CARSON. On the Theory of Growth Controls 269

HAFIZ A. PASHA. Comparative Statics Analysis of Density Controls 284

JOHN D. BENJAMIN, GLENN W. BOYLE, AND C. F. SIRMANS. Price Discrimination in Shopping Center Leases 299

HAFIZ A. PASHA. The Case for Heterogeneity of Cities 318

CLAIRE MONTGOMERY. Explaining Home Improvement in the Context of Household Investment in Residential Housing 326

SE-IL MUN AND KOMEI SASAKI. Effects of Urban Transportation System Change on Land Prices in the Setting of Owner-Occupied Residence 351

ANDREW NARWOLD. The Distribution of the Benefits of Tax Arbitrage in the Housing Market 367

EDWIN S. MILLS. The Measurement and Determinants of Suburbanization 377

ANNE E. WINKLER. The Impact of Housing Costs on the Living Arrangements of Single Mothers 388

AUTHOR INDEX FOR VOLUME 32 404

INFORMATION FOR AUTHORS

The *Journal of Urban Economics* provides a focal point for the publication of research papers in the rapidly expanding field of urban economics. It publishes papers of great scholarly merit on a wide range of topics and employing a wide range of approaches to urban economics. The *Journal* welcomes papers that are theoretical or empirical, positive or normative. Although the *Journal* is not intended to be multidisciplinary, papers by noneconomists are welcome if they are of interest to economists. Brief Notes are also published if they lie within the purview of the *Journal* and if they contain new information, comment on published work, or new theoretical suggestions.

Manuscripts should be prepared according to the following style rules (deviation from these rules causes publication delays).

All manuscripts should be submitted in triplicate to:

Professor Jan K. Brueckner
Editor, *Journal of Urban Economics*
Department of Economics
University of Illinois
1206 South Sixth Street
Champaign, Illinois 61820
Telephone: (217) 333-4557

Original papers only will be considered. Manuscripts are accepted for review with the understanding that the same work has not been and will not be nor is presently submitted elsewhere, and that its submission for publication has been approved by all of the authors and by the institution where the work was carried out; further, that any person cited as a source of personal communications has approved such citation. Written authorization may be required at the Editor's discretion. Articles and any other material published in the *Journal of Urban Economics* represent the opinions of the author(s) and should not be construed to reflect the opinions of the Editor(s) and the Publisher.

Authors submitting a manuscript do so on the understanding that if it is accepted for publication, copyright in the article, including the right to reproduce the article in all forms and media, shall be assigned exclusively to the Publisher. The Publisher will not refuse any reasonable request by the author for permission to reproduce any of his or her contributions to the journal.

Form of Manuscript. Submit manuscripts in triplicate, double-spaced on one side of 8.5 × 11-in. white paper. All pages must be numbered. *Page 1* should contain the article title, author(s) name(s) and complete affiliation(s), a proposed running head (abbreviated form of title) of less than 35 characters including letters and spaces, and the name and complete mailing address of the person to whom all correspondence should be addressed.

Symbols. Attach to the manuscript a complete list of symbols used in the paper, identified typographically, not mathematically. If equations are handwritten in the text, the symbols list should also be handwritten. Distinguish between "oh" and "zero," "ell" and "one," etc. Also indicate special type, e.g., vector, script, etc.; all other letters will be italic.

Tables. Number all tables consecutively with Arabic numerals. Tables should be typed double-spaced on a separate page. All tables should have titles. Footnotes to tables should be lowercase, superscript, italic letters, ^{a,b} etc. and should appear double-spaced immediately below the table.

Footnotes. Use of footnotes is discouraged. If they must be used, footnotes should be numbered consecutively with superscript Arabic numerals starting with the article title. They should be typed on a separate page, double-spaced.

Equations should be typewritten with the equation number placed parenthetically in the right margin. All mathematics should be typed or printed as clearly as possible.

Figures. All illustrations are to be considered as figures and numbered consecutively with Arabic numerals. Type figure legends double-spaced on a separate page. Plan figures to fit the proportions of the printed page (approximately 5 × 7- or 8 × 10-in. originals); all artwork must be submitted in form suitable for reproduction. Use a professional lettering set; lettering should be large and clear enough to be legible after a reduction of 50–60%. Characters should be approximately 0.32–0.44 cm high (Leroy Lettering Sizes 150–175). Illustrations in color can be accepted only if the authors defray the cost.

References. All references should be cited by Arabic numerals in brackets, e.g., [1], [2], etc. Journal titles should be spelled out in full. References should be typed *double-spaced*. Note the following reference styles:

1. G. K. Turnbull, A comparative dynamic analysis of zoning in a growing city, *Journal of Urban Economics*, **29**, 235–248 (1991).
2. G. Peterson and T. Mueller, Regional impact of federal tax and spending policies, *in* "Alternatives to Confrontation" (E. Arnold, Ed.), Heath, Lexington, MA (1980).
3. D. Feenberg and E. S. Mills, "Measuring the Benefits of Water Pollution Abatement," Academic Press, New York (1980).

For general style, authors should refer to *A Manual for Authors*, 1980, published by the American Mathematical Society.

Proofs. Proofs will be sent to the author, with a reprint order form. Authors will be charged for alterations in excess of 10% of the cost of composition.

Reprints. Fifty reprints without covers will be provided free of charge. Additional reprints may be purchased; an order form will be included with the proofs.

Personal Computer Disks. Manuscripts may be submitted to *Journal of Urban Economics* on personal computer disks after the manuscript has been accepted and after all revisions have been incorporated onto the disk. Label the disk with the type of computer used, the type of software and the version number, and the disk format. All tabular material will be typeset conventionally. Art must be prepared as camera-ready copy; see the section on Figures earlier in this Information for Authors.

A hard copy printout of the manuscript that exactly matches the disk file must be supplied. Academic Press will not accept disks without accompanying printouts of all files on the disk. File names must clearly indicate the content of each file. The manuscript will be edited according to the style of the journal, and the proofs must be read carefully by the author. Disks that are not translatable or economical to process will not be used. The publisher reserves the right not to use the disk.

For further information on preparing disks for typesetting conversion, please contact the publisher (Editorial Supervisor, Journal Division, Academic Press, Inc., 1250 Sixth Avenue, San Diego, California 92101; telephone: (619) 699-6415; fax: (619) 699-6800).

GAMES and Economic Behavior

EDITOR: **Ehud Kalai**
Northwestern University
Evanston, Illinois

Game-Theoretic Modeling in the Social, Biological, and Mathematical Sciences

Papers published are mathematically rigorous as well as accessible to readers in related fields. The purpose of **Games and Economic Behavior** is to facilitate cross-fertilization between the theory and application of game-theoretic reasoning.

Research Areas Include

•Game theory •Economics •Political science •Biology
•Computer science •Mathematics •Psychology

Volume 4 (1992), 4 issues
ISSN 0899-8256

In the U.S.A. and Canada: $122.00
All other countries: $147.00

Manuscripts may be submitted to:

Games and Economic Behavoir
J.L. Kellogg School of Management
MEDS Department
Northwestern University
2001 Sheridan Road
Evanston, Illinois 60208

Sample copies and privileged personal rates are available upon request. For more information, please write or call:

ACADEMIC PRESS, INC.
Journal Promotion Department
1250 Sixth Avenue
San Diego, CA 92101 U.S.A.
(619) 699-6742

All prices are in U.S. dollars and are subject to change without notice.
Canadian customers: Please add 7% Goods and Services Tax to your order.
